7 months

"Oriental Private School" NTM
Tashkent, platform.ops-maktab.uz

Full-Stack Web Developer and Project Manager

This platform monitors the knowledge level of all students. The platform works in 3 positions: admin, teacher, pupil. Admins register teachers and students. Teachers create tests for students in Excel and upload them to the platform. Students can run tests and check their knowledge, the platform gives diamonds depending on the test results. We saved about x/3 time through this platform. All results can be downloaded in Excel format. We are working on adding more features.

September 2022 — till now
